

## Nagoya City Oasis

"I spent the night in Nagoya and needed a place to rest my head so I booked this Hostel online. I didn't scroll much through the pictures as it was a last minute booking but I was pleasantly surprised when I walked up to the hostel. The gentleman behind the counter was extremely helpful, kind, spoke English, helped me with my bags and gave me a tour of the facility. To my surprise, there is an Onsen that is open over night!!! What a treat. The Onsen is a must do! I left early in the morning to sight see and I was able to leave my bags in a secure locker onsite and picked up my things on my way back to the airport. I was even allowed to shower one last time before my long journey home. I highly recommend experiencing this hostel if you're in Nagoya. The beds a comfy, the entire facility is clean, safe and there a lot of amenities."
